INTRODUCING THE PANACAST 50 VIDEO BAR SYSTEM

A smarter way to work the room

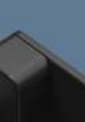

Our multi-award-winning PanaCast 50 is now available as an all-in-one video bar room system with intelligent AI experiences and an onboard Android compute for an engaging and easy-to-use meeting room solution.

Imagine meetings that started smoothly and kept everyone engaged from the word go. Now stop imagining it and start believing it, because that's exactly what PanaCast 50 Video Bar System is designed to do.

We've done the heavy lifting, so you don't have to.

120° field of view and intelligent
meeting room experiences

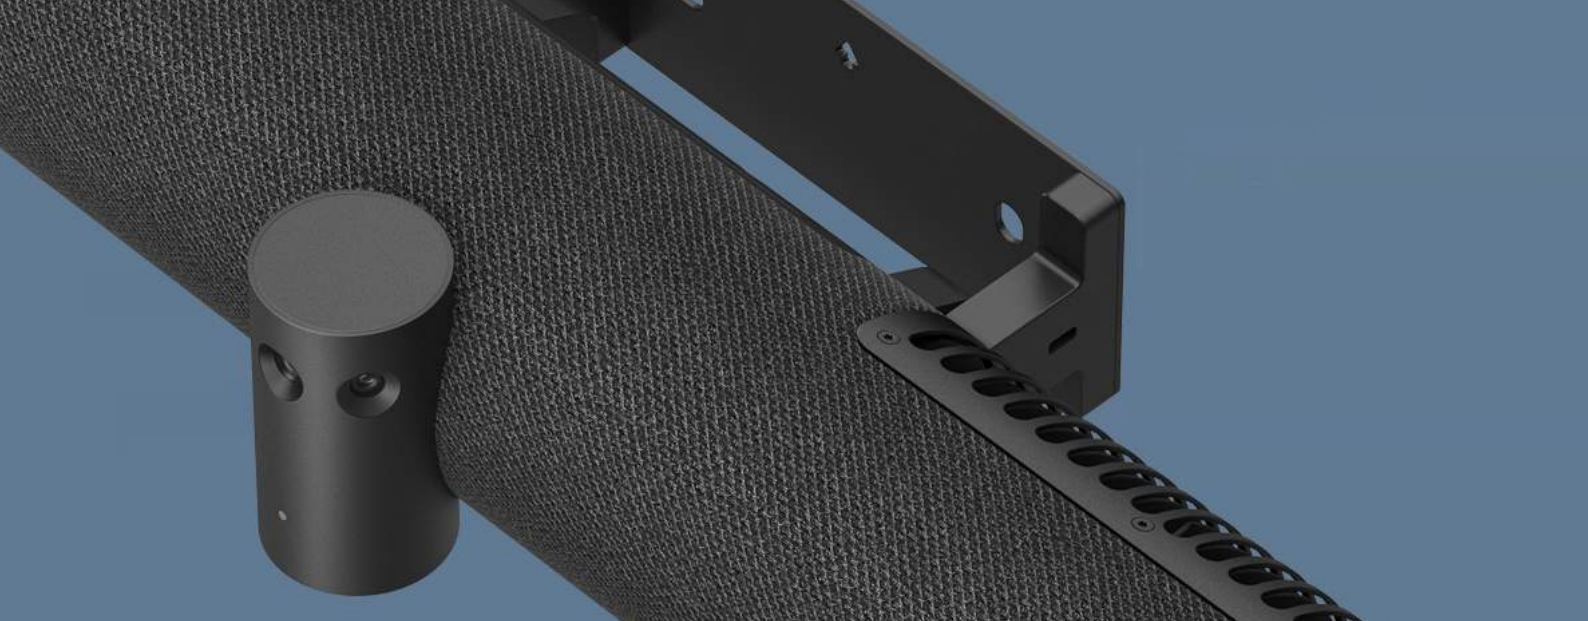

World-class professional audio

Certified for Microsoft Teams and
Zoom Rooms

Easy to install & deploy, with
minimal cabling

CERTIFIED FOR MICROSOFT TEAMS

EASE OF USE One touch is all it takes. We all know the sweaty-palmed stress of rushing last minute into a meeting and then frantically fumbling around to get set up on time. But because Jabra PanaCast 50 Video Bar System has an easy-to-use PanaCast Control touchscreen tablet to manage everything, your teams can simply walk into their next meeting and instantly get going - directly joining, sharing content and ending meetings with a simple tap.

Jabra GN

KEEP THEIR FOCUS ON WHAT MATTERS
With 80% of meetings now fully virtual or hybrid,¹ it's tough to keep your teams interested and engaged with what's going on (especially on Monday mornings). But thanks to intelligent features responding in real-time to what's happening, everyone can follow all of the action easily, for more focused meetings that are guaranteed to grab their attention.
