Pro Labelling Machines

The Pro Labelling Machines are built to handle any job, big or small. The PT-E310BTVP and PT-E560BTVP are built with electricians and network professionals in mind. Designed with ease of use in mind, they feature an intuitive interface, a compact and portable build, and a built-in label cutter for added convenience. Reliable for both quick fixes and complex projects, these machines get the job done right, every time.

The new Pro Labelling Machine range is available now

Custom Label service for your customers

For a limited time, your customers can enjoy a free consultation from our professional team of experts and get ready-to-use custom label templates with the purchase of a Brother TD or QL series label printer. Our labelling experts will assess your customer requirements, including print volume requirements and type of products they'll be labelling. Plus... they'll also receive a mock-up of their company's label template, complete with logo, product details and a 1-hour training session.

For more information, visit https://info.brother.com.au/custom-labels

Commercial Thermal Printers

Made for creating labels, wristbands, receipts, tags and barcodes – the TD-2350D and TD-2320D offer great value. This range of Commercial Thermal Printers is designed to integrate into your infrastructure seamlessly, excellent for various vertical market applications. It's the perfect solution for businesses needing versatile, high-speed printing.

The new Commercial Thermal Printer range is available now

Brother Pro Tapes Range

The Brother Pro Tape range has been developed and tested to meet the needs of skilled trades who require dependable, durable, long-term identification solutions.This range features strong adhesive tape, tapes for cable identification, security tape for tamper evident labelling and stencil tape for chemical etching of metal. Depend on Brother Pro Tapes to meet your customers' toughest labelling demands with durability and precision.

Education Solutions

FOR AN OPTIMISED EDUCATION ENVIRONMENT

We can't stop pupils being a handful. But what we can do is ensure Education printing and technology solutions are much easier to control.

By combining innovative features with exceptional visibility of costs and usage, Brother puts your Education customers in complete control of their print and technology solutions.

Brother Solutions for Education

Staying within strictly controlled school budgets requires the efficient use of technology and consumables. This applies to a surprisingly wide range of processes at schools as modern printing solutions aren't just about printing documents. From enhancing secure visitor management to improving document capture and management workflows, schools will discover many ways to improve their efficiency, security and sustainability.

Library

In the library, students and teachers can scan information quickly and easily directly to their email addresses. There is no need to install scanner drivers or configure settings, plus it allows the administrator to control and trace all scanning activity.

Classroom

Print quotas can be set in the form of assigned printing credit. Once used up, students cannot print until additional credit has been added to their accounts. This allows the IT department to significantly reduce wasted print jobs and closely monitor user printing.

Print Room

Reports, exam test sheets and other confidential documents can be securely printed as each print job can only be retrieved by entering an assigned PIN code at any printer control panel, or by swiping an ID card.

Functions included on this page may feature solutions that require third-party products. Please contact your Brother Account Manager for more information

To learn more about how Brother products can enhance processes in the education industry, check out our resource library.

View here

IT Department

The reporting toolset provides the school IT Manager with increased knowledge and control over printing resources. Accounting reports detail student and staff printing amounts, while administrator reports help identify printer usage patterns – helping to cut costs.
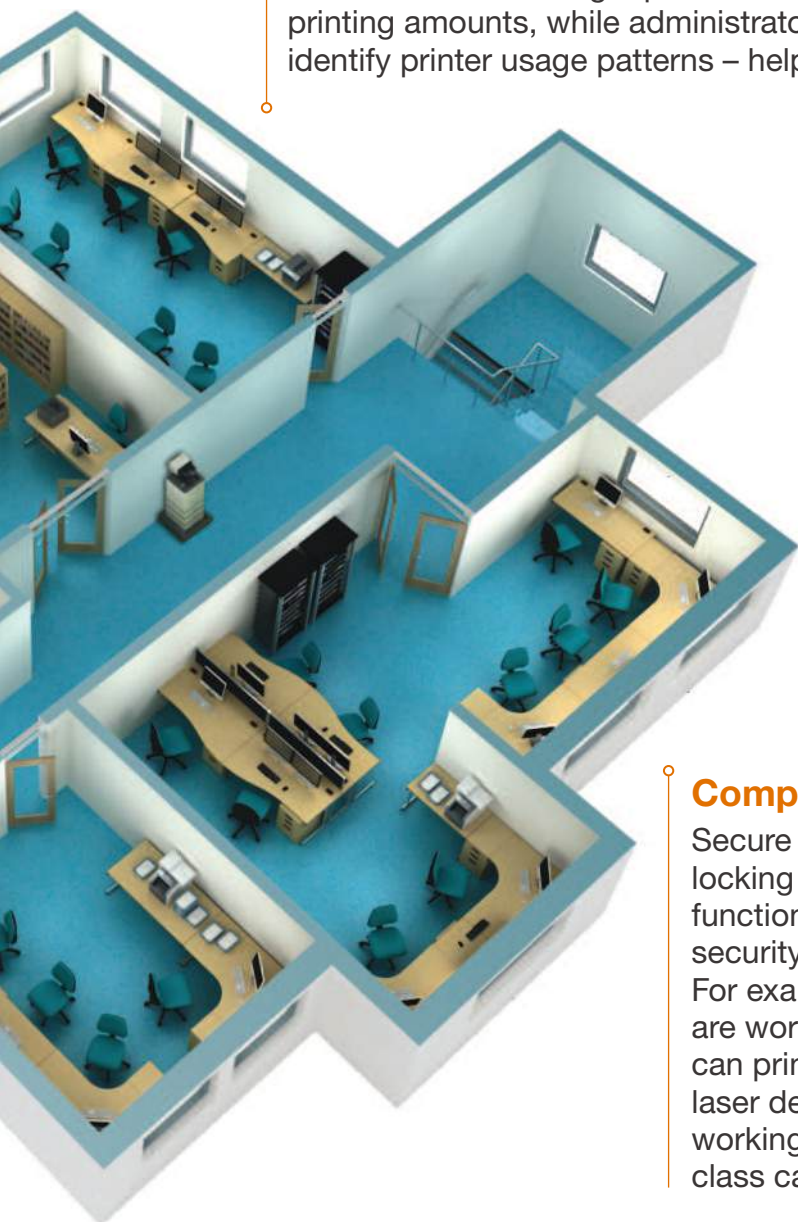

Computer Lab

Secure function lock enables locking out specific printer functions to improve device security and help save costs. For example - students who are working on their essays can print to a monochrome laser device whereas students working on a project for their art class can print to an A3 Inkjet.

Healthcare Solutions

FOR AN OPTIMISED WORK ENVIRONMENT

Healthcare providers today face the challenge of improving access to quality patient care while keeping costs down.

Brother offers a comprehensive suite of reliable machines and solutions. Empower your healthcare clients with our machines that help them consolidate various functionalities for greater cost-savings and improved productivity.

Brother Solutions for Healthcare

From registration and administration to patient diagnosis and medication processes, Brother offers a comprehensive suite of reliable and cost-effective printing, scanning and labelling solutions, fully optimised for a modern healthcare environment.

Cerner and Meditech compatible

Administration
Manage patient administration and appointment scheduling.

Ambulance
Transfer patients and provide critical paramedical care.

Building Management
Oversee storage and maintenance of building and medical assets.

Laboratory
Collect, test and analyse patient samples and provide timely results with labels capable of withstanding chemical and sterilisation environments.

IT Department
Manage printing solutions and supplies across all hospital departments
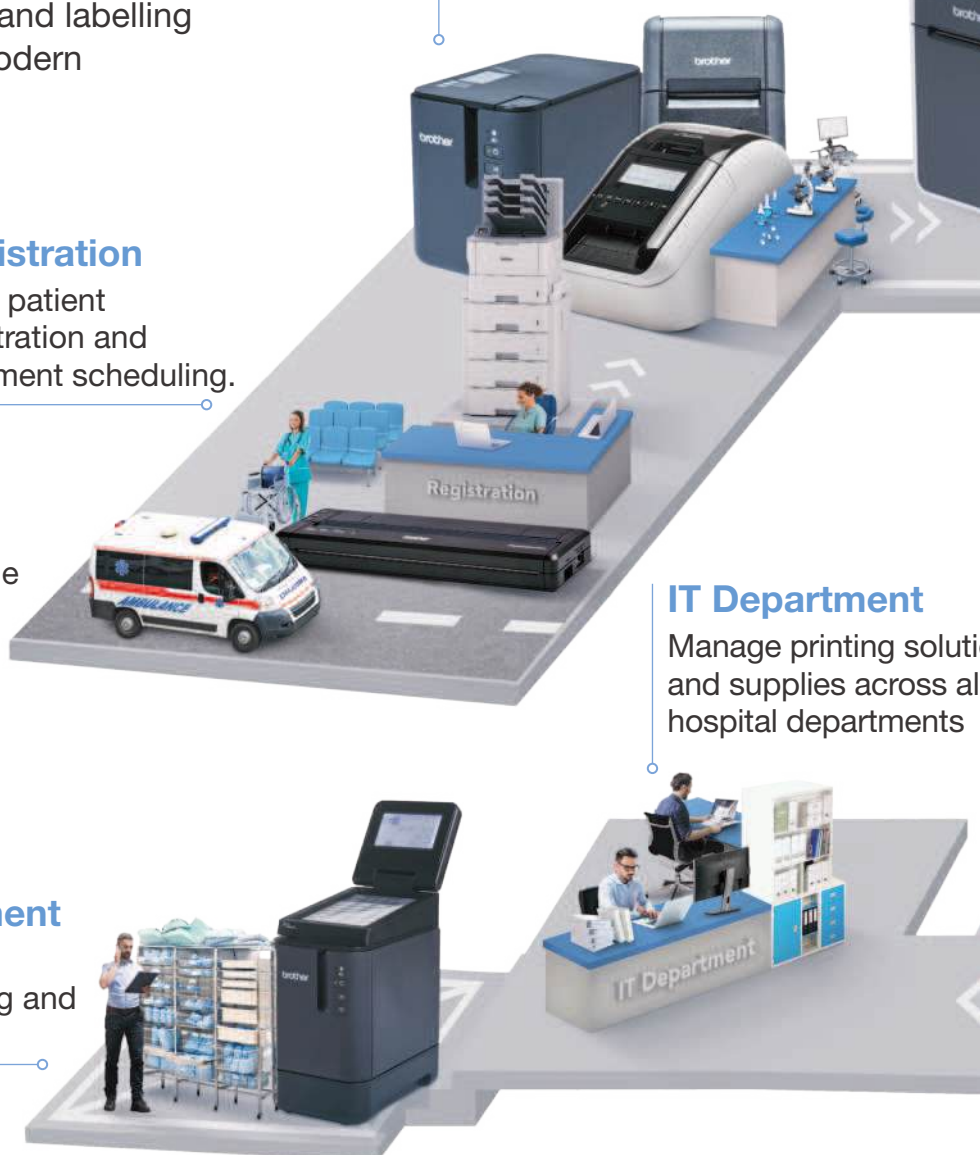

To learn more about how Brother products can enhance processes in the healthcare industry, check out our resource library.

View here

Patient Admissions
Track and manage hospital's inpatient and outpatient services.

Pharmacy
Dispense medication and print prescription instructions for medication packaging.

Medical Records
Store, maintain and access patient records and history.

Billing
Process payments for services rendered and insurance claims.

Aged Care Solutions

FOR AN OPTIMISED CARE ENVIRONMENT

Behind every great care team is the right support. Brother offers easy-to-use print and labelling solutions that help aged care providers stay organised, meet compliance requirements, and simplify everyday tasks. From food and medication labelling to mobile printing and secure record keeping, our tools are designed to support the people who care for others.

Brother Solutions for Aged Care

Trust adaptable, user-friendly solutions that minimise errors, simplify processes and enhance the care experience for both residents and staff. Whether it's food safety, medication labelling, mobile printing for home care or secure record management, Brother provides proven tools to support the changing needs of today's care environments.

Kitchen and Food Services

Stay compliant with food safety standa[rds by] printing time-stamped food rotation, al[lergen and] dietary labels. Simplify kitchen workflo[ws with] rugged label printers that support colo[ur] and batch printing.

Nurses' Station

Print detailed patient care records, consent forms and incident reports quickly and securely. Enable Secure Print to ensure confidentiality of health information and alignment with regulatory compliance.

Administration Office

Streamline admin work by printing car[e plans,] admission forms, invoices and NDIA d[ocuments] quickly and efficiently with high-speed multi-function devices.

To learn more about how Brother products can enhance processes in the aged care industry, check out our resource library.

- Prints on fade-proof & durable TZe laminated tape, perfect for indoor and outdoor use
- Fast print speeds of up to 30 labels per minute
- Prints 3.5, 6, 9, 12, 18 and 24mm labels
- Automatic (full & half) tape cutter & easy peel function
- USB-C and Bluetooth connectivity
- Up to 6 "one-touch" function keys for general labels, faceplate, cable flag/wrap, punch down block and patch panel ID
- 960 symbols 7 frames, barcode and QR code generation for electrical, datacom, AV, security and safety industry
- Includes free P-Touch Editor label design software with barcode print capability

NEW

PT-E310BTVP*

Compact and portable on-the-go label printer offering unmatched speed, versatility and durability for electricians and network professionals.

- Prints on fade-proof & durable TZe laminated tape, perfect for indoor and outdoor use
- Fast print speeds of up to 20 labels per minute
- Prints 3.5, 6, 9,12 and 18mm labels
- Automatic (full & half) tape cutter & easy peel function
- USB-C and Bluetooth connectivity
- Up to 6 "one-touch" function keys for general labels, faceplate, cable flag/wrap, punch down block and patch panel ID
- 960 symbols 7 frames, barcode and QR code generation for electrical, datacom, AV, security and safety industry
- Includes free P-Touch Editor label design software with barcode print capability

PT-E110VP

Portable compact label printer with long-lasting, fade-proof labels for quick and reliable labelling in the field.

- Prints on fade-proof & durable TZe laminated tape, perfect for indoor and outdoor use
- Prints 3.5, 6, 9 and 12mm tape
- Large back lit LCD graphic display
- Cable wrap/ Cable flag function
- 200 symbols and barcodes for electrical, datacom, AV, security and safety industry
- Includes hard carry case, power adaptor and 9mm tape

*Comes with Rechargeable Li-ion Battery, USB A to C cable, 1x 18mm TZe tape, hand strap and hard carrying case

PT-E560BTVP

Leave the mark of a smart professional
Durable labelling solution for any network equipment and cabling installations
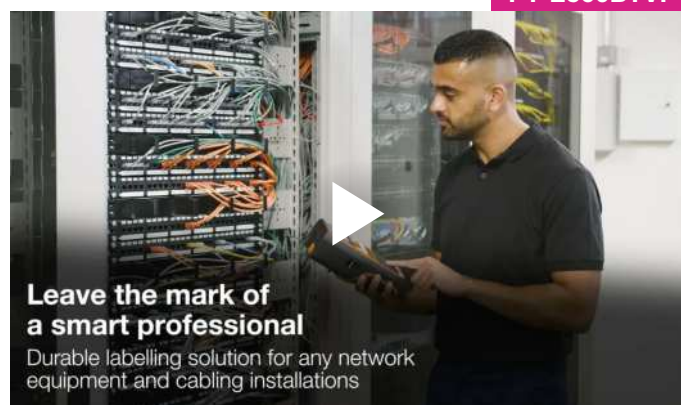

PT-D610BT

Compatible with your way of working, the PT-D610BT is a user-friendly desktop label printer that's designed for labelling around the office.

- USB and Bluetooth connectivity
- Compatible with Brother mobile apps
- Prints on durable TZe laminated tape, perfect for indoor and outdoor use
- Large high resolution colour display with backlight
- Automatic tape cutter
- Prints 3.5, 6, 9, 12, 18 and 24mm tape
- Store up to 99 label templates for quick reprints
- Wide and easy to use QWERTY keyboard
- 17 fonts with 17 styles and over 900 symbols
- Includes free P-Touch Editor label design software with barcode print capability

PT-D460BT

Designed for flexible use, the PT-D460BT is a user-friendly desktop label printer with Bluetooth connectivity that's perfect for your home or small office.

- USB and Bluetooth connectivity
- Compatible with Brother mobile apps
- Prints on fade-proof & durable TZe laminated tape, perfect for indoor and outdoor use
- 16 fonts with 15 styles
- Prints 3.5, 6, 9, 12 and 18mm tape
- Up to 5 line printing
- Manual tape cutter
- Large 20 character 2 line display with preview key
- Store up to 70 label templates for quick reprinting
- Includes free P-Touch Editor label design software with barcode print capability

PT-D210

Desktop user-friendly, no fuss label printer with long-lasting, fade-proof labels - ideal for everyday home and office labelling.

- Prints on fade-proof & durable TZe laminated tape, perfect for indoor and outdoor use
- Graphical display and print preview function
- Easy access keys – quickly select fonts, symbols, frames and patterns
- Prints labels 3.5, 6, 9 and 12mm wide
- 8 alpha and 6 numeric fonts, 617 symbols, 98 frames

PT-H105

Handheld user-friendly label printer with fade-proof labels - ideal for everyday home and office labelling.

- Prints on fade-proof & durable TZe laminated tape, perfect for indoor and outdoor use and iron-on fabric tape
- ABCD Keyboard with separate number keypad for easy use
- Prints 3.5, 6, 9 and 12mm tape
- Built-in memory function
- Manual tape cutter
- Features DECO Mode: 12 pre-designed label formats
- Uses 6 x AAA batteries

QL & VC

QL-1100 / QL-1110NWB

Robust, label printers providing professional results in wide-format - ideal for eCommerce address labelling.

- USB 2.0
- AirPrint, USB, Bluetooth 2.1, Wired Network & Wi-Fi (QL-1110NWB only)
- Fast print speed - 69 labels per minute
- Prints die cut labels or continuous rolls up to 103mm wide
- Automatic label cutter
- High-quality 300 DPI resolution printing ideal for logos and graphics
- Includes free P-Touch Editor label design software with barcode print capability
- Software Development Kits (SDKs) for Windows, iOS and Android
- Compatible with BarTender

QL-800 / QL-810W / QL-820NWB

Brother's unique range of professional label printers can print both black and red text.

- Print speed - 93 labels per minute (QL-800) or 110 labels per minute (QL-810W and QL-820NWB)
- Black and red text label - requires DK-22251 roll
- USB 2.0 (QL-800 only)
- AirPrint, USB & Wi-Fi (QL-810W)
- AirPrint, USB, Bluetooth 2.1, Wired Network & Wi-Fi (QL-820NWB only)
- Prints die cut labels or continuous rolls up to 62mm wide
- Automatic label cutter
- High-quality 300 x 600 DPI resolution printing ideal for logos and graphics
- Plug and Play (QL-810W)
- Includes free P-Touch Editor label design software with barcode print capability
- Software Development Kits (SDKs) for Windows, iOS and Android
- Optional Li-Ion battery for printing way from power sources (QL-810W and QL-820NWB only)

Keep safe with the QL-800 Series

B2B EXCLUSIVE - QL-820NWB

QL-700

Brother's PC/Mac professional label printer that prints labels up to 62mm wide.

- USB 2.0
- Print speed - 93 labels per minute
- Automatic label cutter
- Easy to use drop in rolls
- Plug and print feature
- Label Collection features pre-designed labels for files, signage etc. in P-touch Editor
- Die cut labels or continuous rolls
- High-quality 300 x 600 DPI resolution printing ideal for logos and graphics
- Includes free P-Touch Editor label design software with barcode print capability
- Software Development Kits (SDKs) for Windows, iOS and Android

VC-500W

Bring your labels to life with this compact full colour label printer - using cutting-edge technology to guarantee a professional, full colour finish on every bespoke project you want to personalise.

- High-quality 313 DPI print resolution ideal for logos, photos and graphics
- AirPrint, USB and Wi-Fi
- Prints 9, 12, 19, 25 and 50mm rolls
- Includes AC adaptor
- Customise every detail using Brothers's Color Label Editor mobile app for Android and iOS or the FREE P-Touch Editor label design software
- PC/Mac connectible
- Automatic full and half cutter
- Uses Zink Zero Ink Technology

  *12 months warranty on this product.

Visitor Management

Enabling you to keep track of incoming visitors and guests with ease

There are still many facilities where visitors, meeting attendees and contractors are signed in via a handwritten paper log. While this is often seen as the quick and easy way to register visitors and guests, it offers little security and leaves visitor information out in the open for anyone to see.

By including Brother hardware as a part of your visitor management system, you're creating the kind of professional appearance appreciated by guests, while enhancing security measures and meeting compliance mandates for the collection and auditing of visitor data.

How Brother Can Help

Improved Security and Visitor Identification

A visitor management system improves building security and access control by effectively monitoring people entering and exiting the building and keeping track of what areas are being accessed.

Additionally, a clearly printed ID badge provides a visual indication of your visitors' credentials while they are roaming about your premises.

Professional Visitor Management Solutions

Improve your organisation's professional appearance with a streamlined visitor check-in that incorporates high quality badges for all visitors.

Easily search, print or export visitor data, providing clear visibility of important visitor details, from the internal staff members they're visiting, to their check in and check out times. This also provides a clear-cut measure for validating the time spent on-site by contractors against invoices.

Easy Integration of Label Printers into your existing Visitor Management System

Brother's extensive range of Professional Label Printers can be easily integrated into your existing visitor management system. They can be tied in to virtually any platform with the assistance of our Brother Software Development Kits (SDKs).

With a range of accessories and connectivity options, there is a labelling system that's readily tailored to your business's specific visitor management requirements.

Naming Conventions

❶ Product Functions

MFC = Multi-Function Centre
DCP = Digital Copier Printer
FAX = FAX Machine
HL = Single Function Printer
PDS = Professional Document Scanner
ADS = Desktop Document Scanner
DS = Portable Scanner
